
White Dorpers

Posted by topdeckstud - 2009/09/26 18:41

Top Deck produces finest White Dorper Rams for breeding stock and commercial use through-out Australia. We are based near Wellington in central NSW.

Our order of breeding priority is firstly to breed clean shedders, secondly to breed meaty quick-maturing lambs and then of course we've selected for all the other generally accepted necessities of any sheep such as fertility, soundness and temperament.
